SUMMARY

Product Engineer at Deloitte with hands-on experience building and maintaining production full-stack applications using **React, TypeScript, Node.js, Python, and PostgreSQL**. Strong foundation in Data Structures & Algorithms with **1,000+ problems solved** across Codeforces, LeetCode, and CodeChef. Experienced in debugging complex codebases, designing backend APIs, implementing role-based access control, and working across frontend, backend, and data-processing services.

WORK EXPERIENCE

Product Engineer — Deloitte

(Jan 2026 – Present)

Semester-long Intern (Jan – Jun 2026), converted to full-time (Jul 2026 – Present)

- Build and maintain the **Vulcan Diligence Assistant**, a production enterprise platform, working across **React/TypeScript, Node.js/Express, Python services, and PostgreSQL**.
- Resolved **50+ major defects** across frontend and backend services, tracing issues through service boundaries to identify root causes and deliver production-ready fixes.
- Reworked **platform-wide role-based user management**, implementing access controls across 3+ user roles and strengthening authorization, API validation, and structured error handling.
- Delivered UI and workflow improvements from **Figma designs and UAT feedback**, working across Industry Benchmarks, Payroll Analyzer, and platform-level user management.

Product Engineer Intern — Deloitte

(Jun 2025 – Jul 2025)

- Built Python and Pandas-based backend workflows for **payroll data cleaning, parsing, transformation, and analysis** across diverse client datasets.
- Designed data-processing logic to handle varying input formats reliably, improving the robustness and consistency of automated payroll analysis workflows.

Teaching Assistant — LNMIIT

(Aug 2024 – May 2025)

- Mentored **100+ students** across Algorithm Design, Database Management Systems, and Computer Networking labs, helping students debug implementations and optimize solutions.
- Conducted hands-on lab sessions covering algorithms, databases, networking concepts, and practical problem-solving.

PROJECTS

CinePass | Node.js, Express, MongoDB, Mongoose

[Github](#)

- Built a full-stack **movie and show ticket-booking platform** with movie, theater, show, user, and booking workflows.
- Implemented **atomic seat-booking transactions** to prevent double-booking under concurrent requests, with real-time seat availability updates.
- Implemented **JWT authentication and role-based authorization** with protected booking and administrative workflows.

Instagram Comment Automation | React, Express, PostgreSQL, TypeScript

[Github](#)

- Built an automation platform that triggers workflows from Instagram comments using the **Meta Graph API**, supporting keyword-based and all-comment triggers.
- Implemented **non-blocking webhook ingestion** to immediately acknowledge Meta events while executing automated comment replies and direct message workflows asynchronously in the background.

Alumni Connect | React.JS, Node.js, Express, MongoDB, Firebase, Tailwind CSS

[Github](#)

- Built a full-stack alumni networking platform with **batch-wise directories, profiles, posts, authentication, and automated email notifications**.
- Implemented Firebase-based authentication and file storage, JWT-protected backend APIs, and admin workflows for managing alumni content and users.

ACHIEVEMENTS

- **Specialist at Codeforces**. Contest Rating - **1573** (Problems Solved: 300+) (Codeforces) dcodeDV
- **Knight at Leetcode**. Contest Rating - **2059** (Problems Solved: 700+) (Leetcode) dcodeDV
- **4-star at Codechef**. Contest Rating - **1809** (Codechef) dcodeDV
- Conferred with **11 A** and **10 AB** grades across diverse disciplines, given to the top **10%** of students institute-wide.

TECHNICAL SKILLS

- **Languages** : C/C++, Java, Python, JavaScript/TypeScript, SQL, HTML/CSS
- **Coursework** : DSA, OOPS, Computer Organisation & Architecture, Operating Systems, DBMS, Computer Networks
- **Frameworks/Tech** : React, Node.js, Express.js, Tailwind CSS, PostgreSQL, MongoDB
- **Developer Tools** : Git, VS Code, IntelliJ, Postman, Linux CLI

EDUCATION

2026	B.Tech in C.S.E at The LNM Institute of Information Technology	(GPA: 8.71/10)
2022	Class 12th CBSE Board	(97/100)
2020	Class 10th CBSE Board	(96/100)
